

Dairy Producer

Evaluation of Applicability of Spill Prevention, Control & Countermeasure Plan

¹Gasoline, kerosene, and diesel or non-petroleum based oil (e.g., soybean oil, corn oil, animal fat)

²Underground storage tanks compliant with federal & state programs are exempt from SPCC Regulation

This is not intended to be a comprehensive review of the SPCC Requirements. This Flowchart was prepared based on the SPCC Rule revisions effective August 16, 2002. Each producer should carefully review 40 CFR 112 and its proposed revisions and consult with an environmental professional.
